Subject: Process

Hello Sir,

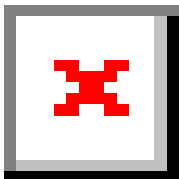

Thank you for the call today!

Here would be the ideal process for reporting and retaining information pertinent to an investigation based on the scenario that we chatted about:

- Add the hotlist hit to evidence.com (Click on the ellipses to the right of the hit and click "add to evidence")
- Look up the plate in the lookup tool (Search> Lookup) screenshot this and add it to evidence.com as well.

Hope this helps! I added Mark to ensure there is not any conflict with the policy you may have in your department!

Best,

Graham Carter
