Hello Lt Menesini,

I hope you are doing well.

Flock permitting is working to address the comments from CalTrans, including the NEPA requirement.

Flock's permitting team met with the consulting firm EBI to review the NEPA (National Environmental Protection Act) and CEQA (California Environmental Quality Act) requirements for the Policy exception from CalTrans D3.

CalTrans has informed us that the CEQA report has to be done in the City's name. We will need confirmation from your City's public works that they would like EBI to do the CEQA report or if the City would like to do the report as it will be in their name.

Could you please advise if your public works will do the CEQA report or if we should ask EBI to proceed on the City's behalf?

Please let me know if you have any questions.

Best Regards,

Melissa

Hello Lt

Menesini,

Thank you so much for sharing this. I touched base with my permitting manager, Derek. He will be reviewing and working on the encroachment policy exception that is needed. This may take several weeks. He typically has to reach out to CalTrans to get clarification as well. I will keep you updated on the progress or if they have any questions for you.

Best Regards,
Melissa

Let me tag in our PM. [@Melissa Barker-Solsbery](#) I believe this request pertains to [THIS](#) project. Could we take a look at the below question? (copying and pasting to save time.)

"Hi

I have recently been assigned as the permit writer for Permit Application #0424-NSV-0053. After review of the permit application, it has been determined that an Encroachment Policy Exception is needed in order to perform your scope of work (Installation of 1 license plate reading cameras on Hwy 780 in the city of Benicia,) in our State Right-of way. Please submit to me a letter requesting for an Encroachment Policy Exception using the provided attached template and instruction guidelines. I've also attached a copy of the permit application and plans you provided for the application for your reference. Upon receipt of the Encroachment Policy Exception letter, a review team will determine whether the request is acceptable.

In addition to the Encroachment Policy Exception letter, I have just the permit application package for our functioning units to review and comment.

If there should be any question, please feel free to contact me.

Thanks,

Graham,

This is a very complex request from the state. Is this something your team handles as part of the permit process?
