Hi, that makes

sense! Yes, if you have the power point that would be great to have for our coverage as soon as it's available. Thank you so much.

This is an informational presentation only and unfortunately will not be live streamed. This is a community meeting not a commission or council meeting. If it helps, I can send you the power point tomorrow with all the information we will be sharing with the community. This meeting is only designed to educate those in the community who may want to learn more about our ALPR system, not a discussion on if we should continue the camera program. Let me know if you want a copy of the PP. Thanks

Hi, I

just wondered if this request was seen and if the virtual option of joining or getting an archived recording afterward will be possible? I really appreciate your assistance with this for our article.

Hi, I'm contacting you as we at the Vallejo Sun are covering the Benicia PD meeting tomorrow, attached below, and need the usual virtual information for viewing recordings afterward as the city regularly archives them.

Could you and Benicia PD provide a link to either those wanting to see the livestream, or provide how the recording will be made available and archived after as part of the city transparency? I also appreciate it for those who can't attend in person!
