Dear Police1 Member,

Welcome to the first issue of Police1's Real Time Crime Center newsletter — your definitive resource for the technology trends impacting policing now and in the future. Real time crime centers (RTCCs) are transforming public safety — and fast. By combining live video, license plate recognition, geospatial mapping and more, RTCCs give officers real-time intel to respond quicker, investigate smarter and keep communities safer.

□□□□ **In today's edition:**

- Enhancing communication between dispatch and the RTCC
- Aligning RTCC operations with agency strategic goals
- Cobb County's evolution from RTCC pilot to full-scale powerhouse

We encourage you to check out our [full collection of RTCC content](#), and consider how technology impacts the effectiveness and efficiency of policing today. What do you want to learn more about? Email editor@police1.com.

Thank you to [Flock Safety](#), [Leonardo](#) and [Peregrine](#) for supporting this content.

Stay safe,

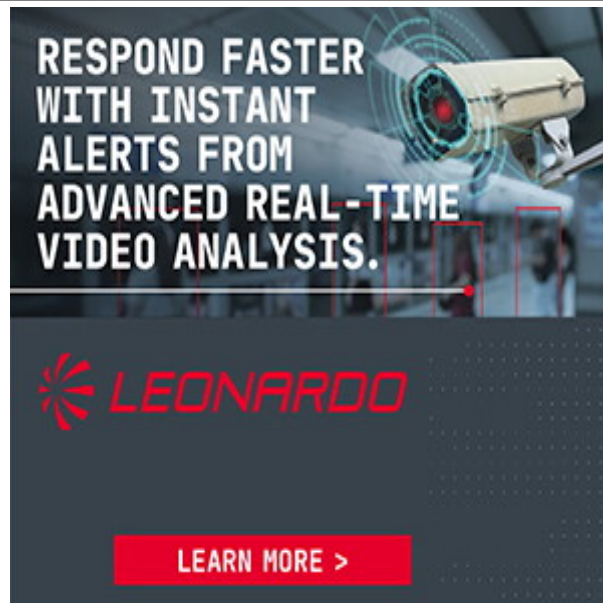

— *Nancy Perry, Director of Content, LE and Corrections*

BEST PRACTICES

Eyes on the street: How real time crime center video is transforming police investigations

By giving officers real-time access to video, RTCCs are turning in-progress calls into solved cases and helping agencies close investigations faster and more safely

RTCC NEWS

DUI suspect found casually 'finishing' his cocktail at crash scene, Ga. police say

“Our Real-Time Crime Center captured the moment he sped through an intersection, causing a crash...To make matters worse? He was still drinking when officers arrived,” the Duluth PD stated

Real time crime center video shows suspect striking New Orleans officer with vehicle before OIS

“This is a dangerous business,” NOPD superintendent Anne Kirkpatrick said. “(Officers) go in every day, knowing the dangers that confront them. And it can happen in a moment.”
