Dear Police1 Member,

Here's the reality for every agency investing in new technology: nothing gets off the ground without community support. Whether you're deploying cameras, expanding video analytics or standing up a full RTCC, the success of that rollout depends on trust.

That's why our upcoming Police1 webinar is so timely. "**Building trust in real time – Scottsdale PD's blueprint for a community-connected RTCC**" breaks down exactly how one agency secured public buy-in as it built out its real-time capabilities.

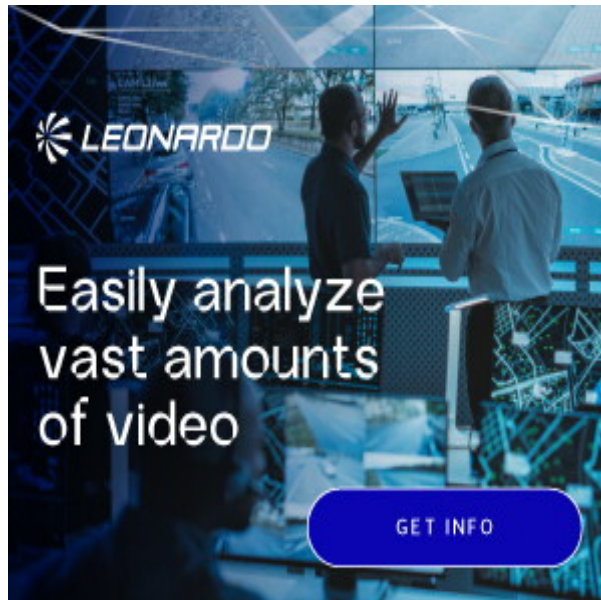

You'll hear how Scottsdale prepares city leaders, engages elected officials and keeps residents informed as capabilities expand, ensuring the RTCC remains a trusted, valued resource rather than a point of friction.

For any agency deploying new technology in 2025, this could be the most valuable webinar of the year. **Register NOW!**

P.S. We encourage you to check out our [full collection of RTCC resources here](#). Thank you to [Flock Safety](#), [Leonardo](#) and [Peregrine](#) for supporting this content.

Stay safe,

— Nancy Perry
Director of Content, LE and Corrections
