[REDACTED]

Thank you for reaching out. Flock recently updated their network audit logs. The changes are described below. These categories are now redacted. However, when I conduct an audit on the backend, I am still able to see the data. Enjoy the weekend,

Ted

To protect officer safety and active investigations, Network Audit Logs will **no longer include:**

- Officer names
- Specific plates searched
- Vehicle fingerprint information

Good afternoon
Ted,

For a couple of days, the USERID on the ALPR Audit Report has been listed as "REDACTED." Can you please follow up with Flock on the cause?

Thank you! Have a great weekend.
